

Traffic Management Plan

2019

Maribyrnong
CITY COUNCIL

Traffic management plan – Standard conditions

If there is no objection to your traffic management proposal, please follow Council's general conditions as shown below:

1. All emergency services must be notified as early as possible prior to the commencement of works.
2. Written notification regarding the proposed works, to be provided to all properties within the vicinity of the work zone at least 3 to 5 days prior to the commencement of works. The notification is to advise of the date and duration of the works and the name and contact details of the works supervisor.
3. Public Transport operators being advised of the date and duration of the works and provided with the contact name and number of the works supervisor. Access to Bus or Tram Stops in the vicinity of the works zone, is not to be affected without the consent of the Public Transport operator.
4. Traffic management is to be implemented only for the dates and times as specified in the Traffic Management Plan (TMP). Council reserves the right to request an alteration to the hours of operation of traffic management, to minimise inconvenience to road users.
5. The closure is to be undertaken in accordance with VicRoads' Worksite Traffic Management – Code of Practice, which includes AS1742.3 – Part 3 (2009) – Traffic Control Devices for Works on Roads.
6. The provision of pedestrian traffic management measures, including wheelchair access, where the works impact upon pedestrian paths of travel. Pedestrians and vehicles are not to be permitted within the work zone therefore the traffic management plan must ensure that the work zone is appropriately barricaded. Pedestrians are not to be directed to cross a road as part of traffic management without the provision of appropriate pedestrian facilities.
7. Please ensure the correct speed limits are displayed with END ROADWORK signs after a 40km/h work zone speed limit has been used.
8. The organisers having Public Liability insurance cover of not less than \$20 million. Please ensure a copy of the organiser's certificate of public liability insurance cover is available for inspection on-site during the works.
9. The organisers of the works, to fund the repairs to any Council asset (i.e. road pavement, footpath, street furniture, parking meters, street trees and landscaping) which is damaged by the works. It is required that you take photos of the work zone, including the footpath and road pavement, prior to the commencement of works.
10. Traffic Controllers (marshals) are to be appropriately qualified.
11. Vehicle access to properties must not be impeded by the works. It may be necessary to provide signage/traffic management at driveway/car park entrances and exits to ensure motorists leaving these properties are aware of the traffic management.
12. Any support vehicle or equipment engaged in the works must not occupy/restrict or otherwise affect the remaining traffic lanes.

13. For groundwater monitoring works, please ensure that the well caps are properly installed so they are flushed with the existing surface level and do not constitute a hazard to road users.
14. All vehicles associated with the works must be parked legally at all times.
15. The works being conducted in a manner that minimises inconvenience to other road users.
16. All non-hazardous rubbish and building materials are to be contained within the property or disposed of in a rubbish skip situated at a location approved by Council. For further information please contact Council's Customer Service on (03) 9688 0200.
17. All conditions are based on average traffic flows and it may therefore be necessary to make amendments to these conditions at short notice.
18. On the completion of works, the site must be left in a clean, tidy and safe condition and traffic operation shall be restored to existing conditions by the removal of all temporary signs and barriers etc.
19. Council reserves the right to revoke or amend the TMP at any time.
