**Nature of Use**

A pop-up cinema

**Date**

27 August – 30 August

**Hours of Operation**

3.30pm – 11pm

**Number of patrons:**

100

**Number of staff:**

x5

**Parking Management**

Being only an 8-minute walk from Footscray Train station, the area being well serviced by parking on Moreland, and with showtimes being predominantly after-hours selling maximum of 100 tickets a night, we foresee very little impacts on parking and local amenity.

There are approximately 53 carparks along Moreland between Wingfield and Bunbury and additional 18 parks at Footscray arts. There are also additional 12 x 2p parking on Wingfield Street outside Conways.

After hours there is low occupancy of non-permit vehicles parked in the street.

We are doing a localised marketing campaign only targeting Footscray people, so we expect a lot of walking or riding to the venue given its proximity to residential. We will also be promoting the proximity of the venue to Footscray Station in all our social media posts.

**Noise**

The building is solid brick, and the nearest adjoining resident has already been consulted and is looking forward to the activation. We will measure sound levels during our technical rehearsal and ensure we remain below EPA guidelines of 75 dB to the nearest residence (only cinema level noise and ambient music levels before and after shows).

## Toilet Infrastructure
